HEAVY SELLING STOPS ADVANCE

Business Turns Professional and Quotations Crawl Back to High Point of Day.

NEW YORK, July 13.-At the opening ned favorable for an advance. While Saturday's bank statement was in some respects disappointing, eight of the local banks showing a reserve of less than 25 per cent, the Bank of Belgium had reduced its discount rate one-half of 1 per cent, and finances in Europe as well as in this country are in a promis-ing shape. American shares were strong in London, and the attitude of the speculators here was toward the bull

Initial prices showed slight advances when compared with the closing figures of Saturday. The gains were chlarged during the first half of trading until they averaged about 1 point in the leaders. Union Pacific, Reading, Northern Pacific, and St. Paul were the most ac-

Steel Shares Again Strong.

The Steel shares were strong, the common advancing % point and the common advancing % point and the preferred %. Specialties were conspicuous for their strength. American Cotous for their strength, and advanced 1% ton Oil became active and advanced 1½ After call—Mitchell Mining, 500@¼, points, while Illinois Central gained ½ point. Brooklyn Rapid Transit rose %.

The copper shares showed slight improvement but all respect to the copper shares show the copper shar provement but did not show a disposi-tion to follow the leaders. Amalgamated rose %, as did Anaconda and Smelters.
Owing to the continued report of a large Canadian wheat crop, Canadian Pacific rose 21/2 points.

The market continued buoyant for ar hour, but the trading was characterized by considerable selling, evidently for profit-taking, and the houses did not seem to have large or-ders to buy. Prices responded to the selling pressure and settled back nearly to the opening quotations; and ther gradually gained again under duller

trading.

At noon the market was strong, with a tendency upward. St. Paul attracted much attention, and with Union Pacific, Canadian Pacific, and Reading was among the leaders of the list.

Market Turns Professional.

After midday the market hardened in spots. After the first hour's trading business had been entirely professional, the wire houses being conspicuous for lack of orders to buy on the floor. This cut down the volumes of business considerably, and total sales to neen were siderably, and total sales to noon were

siderably, and total sales to noon wer less than 200,000.

Harriman brokers were active supporters of the stocks in which he is in terested, and Union Pacific, in poin of sales, was easily the leader of the market, while the Steel shares held the better part of the advance in prices Much of the list was inactive, but all the active stocks had marked up price by 1 o'clock equal to or fractions above the high points of the morning.

BIG BOYS TO PLAY

Be Separated From Small Children.

In a letter to President James F. the Washington Playgrounds Association, says that an arrangement has been perfected whereby the larger boys may occupy certain of the larger school playgrounds, provided they are separated from the smaller children.

Where the grounds are not large enough for this separation.

The demand for the books was short and to the point, and while courteous was a peremptory demand that the journal, day book, ledger, receipt books, deeds of trusts, mortgages, stock certificates, check stubs, notes and drafts, be turned over immediately. Mr. Ambrose will wait until 3 o'clock for a reply.

Sores and Uncers are indications of impure blood. They show that the circulation has become infected with germs and poisons, which are being constantly discharged into the open place to irritate the delicate nerves, tissues and surrounding flesh and keeps the sore in a state of inflammation and disease. Whether these impurities in the blood are the result of some debilitating sickness, an old taint from a former disease, or whether it is hereditary bad blood, there is but one way to cure sores eceivers, will continue business, Jus- and ulcers, and that is to purify the blood. Washes, salves, lotions, etc. are often beneficial because of their cleansing, antiseptic effects, but nothing applied to the surface can reach the blood, where the real cause is, and therefore cannot cure. S. S. S. is the remedy for sores and ulcers of every kind. It gets down to the very bottom of the trouble and removes every trace of impurity or poison, and makes a lasting cure. S. S. S. changes the quality of the circulation, so that instead of feeding the diseased parts with impurities, it nourishes and heals the irritated, inflamed flesh and causes the ulcer to fill in with healthy tissue by supplying it with pure, rich blood. PLEASES MORROW ARRESTS ORDERED IN SEWER CASE

Mrs. Muir Vindicated, But Tenants May Be Punished.

WASHINGTON TIMES BUREAU, ALEXANDRIA, VA., JULY 12.

Justice Harry B. Caton this mornin endered his decision in what is know as "the sewer tapping case." The cas arose out of the arrest of Mrs. Mary A. Muir, on the charge of violating the city ordinance which forbids the drain-ing of anything except rain water across pavements on streets on which there is

Mrs. Muir, it was testified at the trial, was the owner of the houses at which the alleged violation of the ordinance occurred, but was not the occupan thereof. Col. F. L. Smith, who repre sented Mrs. Muir, contended that the ordinance was invalid.

This morning Justice Canton held the ordinance valid, but ruled that it does not apply to the owners of houses, but to the occupants thereof. He therefore dismissed the charge against Mrs. It is understood that Chief Goods has

issued orders to the police to arrest the occupants of houses who allow water other than rain water, to flow across the pavements, if there is a sewer on the street which can be tapped. Alexandria shortly after 6 o'clock last

evening was visited by one of the worst wind, rain, and lightning storms in many years. The wind, which preceded the rain, caused much damage to trees, but no damage was done to houses, be youd the blowing off of blinds and the smashing of windows.

Two large trees in the yard of William J. Boothe, in North Washington street, were blown down.

A handsome peach tree in the yard

of Clerk of the Court N. S. Greenaway, in North Columbus street, also went down under the wind.

Branches of trees were broken off and hurled high in the air, many of them catching in the telegraph wires along King street. The storm prostrated most of the telegraph and telephone wires in the

city, but they were speedily repaired by linemen from the offices. The wires of the Alexandria Electric company were cut when it was seen by the employes that crossing wires might prove disastrous, with the result that the city was in darkness last

Traffic on the electric railway between this city and Washington was delayed a short time, owing to falling wires. The frame station of the electric road at Spring Park was turned completely over by the wind.

The employes at the several engin

houses, when the storm was at its height, hitched the horses to the apparatus in case they might be needed, but they were not called out.

The Safest Investments Are those that do not fluctuate during dis-rurbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stabilty, and are exempt from taxaton as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet. "Concerning Loans and Investments."
